**Anticipated Stock-Out: ANDRIOL TESTOCAPS (testosterone undecanoate 40mg)**

Dear Healthcare Professional:

This letter is to inform you of an impending stock out of ANDRIOL in New Zealand.

A significant interruption in the manufacturing of this product has led to a global shortage of supply and stock outs have already occurred in many markets. We currently anticipate that the New Zealand market will next be re-supplied in September 2016.

We currently have 2 weeks' worth of stock on hand in New Zealand.

MSD is unable to provide comment on individual patient circumstances and recommends that if you have any questions or concerns about the appropriate treatment to transition your patient(s) to you should discuss these with an appropriate specialist.

We hope this letter gives you helpful information to help manage your patients. Please contact MSD Customer Services on 0800 500 673 for any further questions.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Michael Hartevelt', is written over a light blue rectangular background.

Michael Hartevelt
