

Losartan Actavis 25mg, 50mg and 100mg Tablets

Product Appearance Change

Teva Pharma (New Zealand) Limited wishes to notify you of a change in the appearance of Losartan Actavis (Losartan Potassium) 25mg, 50mg and 100mg tablets.

Other than the embossing on the tablets, there is no change in any other aspect.

The changes relate to the embossing on the tablet and are detailed below:

Product	Current Description	New Description
Losartan Actavis 25mg	White to off-white, oval shaped, biconvex, film coated tablets with '25' embossing on one side and 'BL' embossing on the other side.	White to off-white, oval shaped, biconvex, film coated tablets with '25' embossing on one side and plain on the other side.
Losartan Actavis 50mg	White to off-white, oval, biconvex, film coated tablets with '50' embossing on one side and 'BL' embossing on the other side.	White to off-white, oval, biconvex, film coated tablets with '50' embossing on one side and plain on the other side.
Losartan Actavis 100mg	White to off-white, almond shaped, biconvex, film coated tablets with '100' embossing on one side and 'BL' embossing on the other side.	White to off-white, almond shaped, biconvex, film coated tablets with '100' embossing on one side and plain on the other side.

Products with the new appearance are expected to be available in the market from late October 2017.

Please note that the Losartan Actavis 12.5mg tablets remain unchanged.

We recommend you advise your patients of these changes to avoid any potential confusion.

Yours sincerely

Teva Pharma (New Zealand) Limited
